## TO WHOMSOEVER IT MAY CONCERN

We, ISP are an US based organization engaged in manufacturing, marketing & sales of Specialty Chemicals being used in the Global Pharmaceutical, Personal Care, Beverage, Performance Chemicals & Agrochemical industry. As a part of our expansion into India, we needed the services of an efficient partner to advice us on requirements to set up local sales operations which included identifying & finalizing a warehouse in the western region.

It is for the above need that we shortlisted & hired SMG Spacers Pvt Ltd as our representative. As of date we have satisfactorily achieved what we had set out to do & we are very happy with SMG Spacers service & support in ensuring a successful implementation.

What we compliment SMG Spacers Pvt Ltd is for their professional & unbiased approach in putting forward all alternatives available in India. Their presentation skills are highly commendable, Time management & maintaining deadlines is immaculate. Mr. Ganatra's knowledge & contacts in the logistics industry was our biggest asset in ensuring a timely & cost effective solution to our business requirement.

We wish Mr. Subhash Ganatra and his team all the success in his future endeavours.

For: International Specialty Products (India) Pvt Ltd

Nelson Corda

Managing Director
